

# The Scottish Fair Trade Forum 2019 Fair Trade Nation Lecture

## The gold supply chain. Hard truths and positive changes

BY IAN NICHOLSON, GOLDSMITH AT THE  
PRECIOUS METALS WORKSHOP, EDINBURGH

Traceability in the global gold supply chain is broken. Join the Scottish Fair Trade Forum and Ian Nicholson to delve into the intricacies and issues associated with gold supply chains.

Ian will draw from his experiences of visiting mines across the world and his work as a practising jeweller to present facts and figures around supply chain issues, demonstrate what Fairtrade has done to produce a traceable “Clean Gold” supply chain, and advise on what

we can all do to help encourage positive changes to benefit mining communities across the world.

**Scottish  
Fair Trade  
Forum**
